

Task – Separation Process vs. Mass Transfer Operation

- Case 1 → Mass Transfer Operations takes place - No Separation Process does
 - *YOUR ANSWER*
- Case 2 → Mass Transfer Operations does not takes place - Separation Process does
 - *YOUR ANSWER*
- Case 3 → Mass Transfer Operations takes place -Separation Process does
 - *YOUR ANSWER*
- Case 4 → No Mass Transfer Operations takes place - No Separation Process does
 - *YOUR ANSWER*

Task – Separation Process vs. Mass Transfer Operation

- Case 1 → Mass Transfer Operations takes place - No Separation Process does
 - Mixing, Agitation
- Case 2 → Mass Transfer Operations does not takes place - Separation Process does
 - Separation of garbage, decanting*, filtration*
- Case 3 → Mass Transfer Operations takes place -Separation Process does
 - Distillation, Evaporation
- Case 4 → No Mass Transfer Operations takes place - No Separation Process does
 - Heating of water from 25°C to 30°C
