

Task – Check out this Industry

- Go to this website:
- <https://www.novasep.com/technologies/ion-exchange-and-adsorption-technologies-for-large-scale-bio-industrial-applications.html>

The screenshot shows the Novasep website. The header includes the Novasep logo with the tagline 'passion & smart processes', navigation links for 'ABOUT NOVASEP', 'PRODUCTS & SERVICES', 'CONTACTS', and 'EVENTS', and a search icon. A 'MY DOWNLOADS' button is also present. The main content area features a large image of industrial equipment and the title 'Applexion® ion exchange technologies for large scale bio-industrial applications'. Below the image, there is a paragraph describing ion exchange as a versatile solution for purification challenges. To the right, there is a 'Novasep News' section with a date '2016/09/06' and a headline 'Novasep appoints Dr. François D'Hooze as...'. Below the news section, there is a 'Technologies' section with a list of applications: 'Industrial electrodialysis', 'Industrial technologies for evaporation, concentration and crystallization', 'Applexion SC, chromatography for large-scale industrial-biotech applications', and 'Industrial cross-flow filtration technology'. At the bottom, there is a 'Downloads' section.
