

Task – Go out and perform Leaching of Coffee Grounded Grains

- Hi!
- This time you need to do something of your own!
- We will perform a **Leaching** (Solid to Liquid Extraction)
- Steps:
 - 1. Go to your kitchen
 - 2. Get your grounded coffee
 - 3. Heat water up to 80°C
 - 4. Mix water and grounded coffee → Let it LEACH for 4 mins
 - 5. Filter solid particulate
 - 6. Enjoy a great Cup of Coffee
